

Territory Wins & Updates

December 2020 GuideOne Monthly, Casey Enzor's Territory

Our Nonprofit & Human Services and Education programs have been successful in all states this year. We won accounts that had very limited markets prior to discovering GuideOne's program. Check out our [Q3 Wins](#) to see where our distribution partners are experiencing success.

Did you know that GuideOne writes Monoline Workers' Compensation (WC)? While we are known as a specialty carrier in the Religious Organizations niche, we also offer monoline Work Comp for many social service organizations across the country. In order to qualify for a monoline Work Comp policy, accounts must be over \$100,000 in premium and fall within the classes we write. Check out our [large WC appetite guide](#) for more details. If you have a social or community service organization with a large WC policy, consider a quote with GuideOne!

Religious Organizations and Nonprofit group policy programs are a specialty at GuideOne. We have long been a leader in writing Master Policies for multi-location accounts and grouping accounts together under a single program, bringing additional value. This fall, we looked at numerous opportunities in the Midwest Territory to provide enhanced group program options for Religious and Nonprofit Organizations. Visit the [GAP/Master page](#) of GuideLink for additional program details, and read about a few of the unique denominational program advantages we offer. Feel free to reach out to me directly to discuss any new opportunities you may have!
